CHAIR'S MESSAGE

Orhan Aydın

Chair of the Board of Trustees

Dear Students and Esteemed Parents,

OSTİM Technical University is a higher education institution that, through strong collaboration with the business world, industry, and society, provides an internationally recognized infrastructure for education, research, and project development, empowering students, academics, and stakeholders to fulfill their potential in creating value for humanity. In recognition of its longstanding role in fostering economic growth both nationally and globally, OSTİM has founded OSTİM Technical University as a symbol of its dedication to cultivating productive individuals in service of societal and humanitarian progress.

The greatest innovation of this century is the rediscovery of learning through collaboration and experience—an educational environment shaped by the fusion of the past and future. We are witnessing a global generation of youth engaging in transformative initiatives that influence the trajectory of the future.

In line with this vision, OSTİM Technical University aims to establish an ecosystem that enables our students, academics, and all segments of society to fulfill their full potential. By fostering a spirit of learning through real-world application and transforming knowledge into value, we aspire to educate our students as active participants. We invite our students to OSTİM Technical University to take another step towards their future and to design a new world together.

The World Awaits You!
Best regards,

Dear Students and Esteemed Parents,

Embarking on its journey with the vision of becoming “The University of Industry, Entrepreneurship, and Technology,” OSTİM Technical University is committed to educating graduates who can transform science and technology into practical applications. This vision will be achieved through strong collaboration with industry, the business world, and the public sector, and will be reinforced through an infrastructure for education, research, and implementation that aligns with international standards. Our University aims to position itself as an active contributor to industry and the economy by prioritizing innovative technologies and entrepreneurial models.

In addition, we aim to develop inquisitive, creative, and productive individuals—graduates equipped with the knowledge and skills required to thrive in today’s competitive landscape. Thanks to on-the-job training integrated with academic knowledge, our students graduate as “experienced new graduates”. As a third-generation University, OSTİM Technical University is positioned at the center of production and innovation processes, working in close coordination with industry.

By embracing the OSTİM-İvedik industrial ecosystem in Ankara as a functional extension of its campus, our University carries out efforts to develop and commercialize projects that generate regional, national, and global benefits.

The Technology Transfer Office of our University contributes to the development of our region and country by collaboratively generating patents, utility models, and innovation projects with academics, students, and industrial partners.

Leveraging its entrepreneurial University model, OSTİM Technical University is committed to advancing its position in both the academic and industrial landscapes. It aims to stand among the leading universities in these fields by implementing frameworks that facilitate the practical application of knowledge and technology through original research, innovation, and solution-oriented projects.

Prof. Dr. Murat Yülek
Rector

UNIVERSITY OF THE INDUSTRIAL WORLD

WHY

VOCATIONAL TRAINING AND INDUSTRY COLLABORATION

Build your future at
OSTİM Technical University,
where the business world,
industry, and students
come together with more
than 6,000 companies.

OSTİM TECHNICAL UNIVERSITY

Where
Vocational Training
Meets Industry.

FACILITIES EQUIPPED
WITH THE
LATEST
TECHNOLOGY

Conduct
groundbreaking research
in our modern
laboratories.

WHY

OSTİM TECHNICAL UNIVERSITY

QUALIFIED
ACADEMIC
STAFF

Learn from experienced
professionals who bring
industry expertise
into the classroom.

INNOVATION CENTER

Study
at a third-generation
university that supports
entrepreneurship.

WHY

OSTİM TECHNICAL UNIVERSITY

CENTRAL LOCATION

Take your place
in OSTİM/Ankara,
Türkiye's
business center.

INTERNATIONAL COLLABORATION

WHY

APPLIED TRAINING

Broaden your horizons and seize unique opportunities through international cooperation opportunities.

OSTİM TECHNICAL UNIVERSITY

Gain in-depth knowledge through an applied training model designed for success in the real world.

SOCIETAL CONTRIBUTION

Take part
in social responsibility
projects that support
societal development
and innovation.

WHY

OSTİM TECHNICAL UNIVERSITY

INTERCULTURAL STUDENT COMMUNITY

With over 3,000 students
from more than
83 countries,
OSTİM Technical University
offers a culturally diverse
environment supported
by 15 active student communities.

EUROPEAN DIPLOMA SUPPLEMENT

OSTİM Technical University
offers its graduates educational and
employment opportunities
in European Union countries.

ERASMUS +

Erasmus Agreements
with Over 50 Universities
from 20 Different Countries

**INTERNATIONAL
COLLABORATIONS**

Among 66

foundation universities,
we rank 18th regarding
the number of
published articles.

We hold the 27th

position
in the number of
articles co-authored
through international
collaborations.

Among

the 119 universities
established after
the year 2000,
we rank 42nd
in the category of
published articles.

We are in the

URAP
Rankings

We rank 2nd among
the universities listed
in the URAP ranking for
the first time.

We were listed 87th
in the number of
articles co-authored
through international
collaborations.

We ranked 91th
regarding the number of
published articles
among
190 universities
across Türkiye.

AD SCIENTIFIC INDEX 2025

- OSTİMTECH Academics is in the World's Most Influential Scientists Ranking!
- Prof. Dr. Turgay Öner ranks among the top researchers in the field of Molecular Biology and Genetics.
- Prof. Dr. Cansel Sağrı is a pioneer in the field of Business and Management Sciences.
- Assoc. Prof. Doç. Dr. İsmail Arıoğlu is ranked in the field of Engineering and Technology.

TEKNOFEST

TEKNOFEST is the greatest festival in the field of aviation, space and technology, organised by the Turkish Technology Team Foundation and the Ministry of Industry and Technology. Bringing millions together every year since 2018, the event aims to support the national technology initiative. Open to participants of all ages, this festival welcomes tens of thousands of competitors and millions of visitors. The fact that our projects are deemed worthy of an award on a platform like TEKNOFEST, it is an indication of our innovative approach, technical competence and social benefit-oriented vision.
